re: LATEX

Specifically as it pertains to the items manufactured from materials that are FDA approved for food contact.

New Tech Plastics does not intentionally add LATEX, nor is it present, to the best of our knowledge, in any of the raw materials used by New Tech Plastics to manufacture polyethylene items.

While we have not specifically analyzed for the presence of LATEX, we have no reason to suspect that it would be present in our finished products.

Sincerely,

NEW TECH PLASTICS

A handwritten signature in black ink that reads "William G. Weikert". The signature is written in a cursive style with a large, prominent "W" and "G".
